

The “Buzz” About Periodical Cicadas

Horticulture Program
DIVISION OF EXTENSION
UNIVERSITY OF WISCONSIN-MADISON

This spring offers an amazing opportunity to experience the rare emergence of periodical cicadas in Wisconsin.

Free Online Program

Wednesday, May 15, Noon–1 p.m.

Presented by PJ Liesch, Director
of the UW Insect Diagnostic Lab

Learn about the biology and life cycle of these fascinating insects and their role in the ecosystem. The program also covers when and where to expect cicada activity in Wisconsin and what it could mean for your own yard.
